Case Study of Five Websites

Introduction

Before developing a website, it is essential to study existing websites to understand design principles, usability, performance, and user experience. This case study evaluates five websites from different domains—Education, Healthcare, E-commerce, Agriculture, and Automobile.

Each website is analyzed based on speed, navigation, content organization, design, technology used, and overall usability.

1. Educational Website

Website Selected: https://www.udemy.com

Purpose of Website
To provide online courses for skill development in technology, business, design, and personal growth.

Website Speed
Fast loading on normal internet connection.
Minor delay due to video previews.

Theme Alignment
Professional and learner-focused.
Encourages self-paced learning.

Navigation
Simple category-based navigation.

Powerful search with filters.

Images & Media
Course thumbnails and preview videos.
Instructor introduction videos.

Content & Data Arrangement
Clear course description, syllabus, and reviews.
Pricing and offers displayed clearly.

Colors
White background with dark blue and purple accents.

Fonts
Clean sans-serif fonts.
Easy readability.

Technology / Algorithms Used
Course recommendation system.
User progress tracking.

Developer
Udemy Inc.

Likes
Affordable courses.
Lifetime access.

Dislikes
Quality varies between instructors.

Overall Evaluation
Very Good

2. Healthcare Website

Website Selected: https://www.fortishealthcare.com

Purpose of Website
To provide hospital details, doctor information, and online appointment booking.

Website Speed
Good speed.
Slight delay due to images and banners.

Theme Alignment
Medical and trust-oriented.
Professional appearance.

Navigation
Easy access to doctor search and appointments.
Location-based hospital selection.

Images & Media
Doctor profiles and hospital infrastructure images.

Content & Data Arrangement
Organized by specialties and treatments.

Colors
White and green combination.
Symbolizes health and care.

Fonts
Professional and readable.

Technology / Algorithms Used
Online appointment system.
Patient enquiry forms.

Developer
Fortis Healthcare Ltd.

Likes
Easy appointment booking.
Clear medical information.

Dislikes
Slightly crowded homepage.

Overall Evaluation
Good

3. E-commerce Website

Website Selected: https://www.flipkart.com

Purpose of Website
To sell electronics, fashion, home products, and groceries online.

Website Speed
Fast and optimized.
Works well on mobile devices.

Theme Alignment
Commercial and user-centric.

Navigation
Well-structured categories.
Advanced search and filters.

Images & Media
High-quality product images.
Multiple viewing options.

Content & Data Arrangement
Product details, reviews, and offers clearly shown.

Colors
Blue and white.

Fonts
Simple and readable.

Technology / Algorithms Used
Recommendation engine.
Cart management system.

Developer
Flipkart Internet Pvt. Ltd.

Likes
Frequent discounts.
Smooth checkout process.

Dislikes
Too many pop-up offers.

Overall Evaluation
Very Good

4. Agriculture Website

Website Selected: https://agricoop.nic.in

Purpose of Website
To provide official government policies and schemes related to agriculture.

Website Speed
Moderate loading speed.
Older infrastructure affects performance.

Theme Alignment
Formal and administrative.

Navigation
Menu-heavy.
Requires user effort to find information.

Images & Media
Very limited images.

Content & Data Arrangement
Text-heavy but information accurate.

Colors
Traditional government color scheme.

Fonts
Basic fonts.

Technology / Algorithms Used
Government CMS.

Developer
Ministry of Agriculture, Government of India.

Likes
Official and trustworthy data.

Dislikes
Outdated design.

Poor user experience.

Overall Evaluation
Average

5. Automobile Website

Website Selected: https://www.tatamotors.com

Purpose of Website
To showcase vehicles and company information.

Website Speed
Fast.
Slight delay due to animations.

Theme Alignment
Premium and modern.

Navigation
Smooth and well-structured.

Images & Media
High-quality vehicle images.

Content & Data Arrangement
Product-centric layout.

Colors
Dark blue and white.

Fonts
Modern sans-serif fonts.

Technology / Algorithms Used
UI animations.
Product comparison tools.

Developer
Tata Motors Ltd.

Likes
Attractive design.

Dislikes
Heavy graphics on slow internet.

Overall Evaluation
Good

Comparative Table

Sr No	Website URL	Purpose	Things Liked	Things Disliked	Overall Evaluation
1	udemy.com	Education	Free learning	Internet required	Good
2	fortishealthcare.com	Healthcare	Authentic info	Basic design	Good
3	flipkart.com	E-commerce	Aesthetic UI	Heavy images	Good
4	agricoop.nic.in	Agriculture	Authentic info	Old design	Average
5	tatamotors.com	Automobile	Visual appeal	Heavy pages	Good

Conclusion

This case study shows that modern commercial websites focus on user experience, speed, and personalization, while government websites prioritize information accuracy. A balance between design and functionality leads to an effective website.
